

# Quasars and Low Surface Brightness Galaxies as Probes of Dark Matter

Erik Zackrisson

## ERRATA

Table 1: Errata list.

Location	Correction
Spikblad	Polhemssalen $\Rightarrow$ Polhemsalen
Summary, page v	optical long-term $\Rightarrow$ long-term optical
Summary, page 3	as the ray crossed $\Rightarrow$ as its ray grazed
Summary, page 24 (twice)	reflectance $\Rightarrow$ reflection
Summary, page 33	$z \approx 2-3 \Rightarrow z \approx 2-4$
Summary, page 34	the latter variations $\Rightarrow$ these variations
Summary, page 34	hoever are $\Rightarrow$ are however
Summary, page 37	by fast rise $\Rightarrow$ by a fast rise
Summary, page 44	$10^{12}-10^{14}$ m $\Rightarrow 10^{12}-3 \times 10^{13}$ m
Summary, page 56	disk by $\Rightarrow$ disk is given by
Summary, page 69	ett par procent $\Rightarrow$ några få procent
Summary, page 69	välkända astronomiska objekt $\Rightarrow$ välkända typer av astronomiska objekt
Summary, page 69	både vår och andra $\Rightarrow$ både vår egen och andra
Paper I, page 26, column 2, paragraph 1	higher angular size distance $\Rightarrow$ higher light travel time distance
Paper V, page 8, equation 4 (printed version only)	Line should not be dashed
